CEO's Message

Our goal is customer satisfaction by offering them quality products, rapid services, and on-time deliveries. We are completely equipped to make a wide range of surgical and dental quality.

We will keep working on improving the quality of our products and asking questions ourselves, "How can we do it better".

To achieve sustainable success at its highest level, we provide our clients with quality products, timely services and related technical services. The satisfaction of our customers as well as our employees is a major part of our mission.

We are pleased to present you with our latest catalog. This catalog is just one part of our dynamic program of worldwide growth and expansion aimed at delivering quality products and services.

Regards

Irfan Rafique
CEO

ABOUT US

At **HUMED**, we are world-renowned manufacturers and exporters of high-quality surgical and dental instruments.

We export our instruments anywhere in the world to reach hundreds and thousands of instruments each year. In a very short amount of time, our company has grown immensely to offer a diverse product range as well as acquire international certifications proving to our customers that our words and our products, both are of the highest quality.

We are the original manufacturers (OEMs) for surgical and dental instruments. Our product depth covers more than 6000 different types of instruments ranging from the typical instruments used in the clinic to sophisticated instruments required during surgeries. We deem, however, pertinent to submit further that the range and scope of our production activities are not limited only to our product literature. We can produce instruments even if not depicted in our catalogs provided we receive samples or photos or references from the world-renowned company's catalog.

We carry following certifications to assure quality at its fullest:

- ISO 9001:2008
- 13485:2008
- CE mark

VISION

Excel in the quality, delivery and cost assumptions of our customers through continuous improvement and customer interaction.

MISSION

For delivering the highest quality product possible through our highly skilled and dedicated employees and state-of-the-art and patented instruments and manufacturing process.

VALUES

The company is committed to build on its history of product excellence and technology innovation to provide the highest quality and most reliable products and services to the worldwide customers and related healthcare industry.

QUALITY/ INNOVATION

At **HUMED**, quality is put into action through specification planning motivated by trained technicians personnel. The computer-aided designing and imaging provide visual instruments with a set configuration, which simplifies each aspect of instrument manufacturing

FUTURE ORIENTED

We are a forward-looking company and are committed to covering more milestones for us to be there. World leaders in our field in the days to come. We shall cooperate with you in every possible way, and assure you to serve your business interests in the best way possible.

COMMITMENT

Our commitment is to meet the changing needs of healthcare systems and to lead the industry by providing quality surgical instruments at a competitive cost. We understand the diverse needs of our customers and know that quality along with delivery times are the most important and common requirements of our customers from both segments. This achievement lets us serve ourselves. customers in the most efficient and cost-effective manner. We are looking forward to serving you
